**BOL SOUL**

**Glenn Jones**

Like great Soul artists from Sam Cooke to Aretha Franklin, Glenn Jones' singing origins are in the Church. In the late 70s, Jones came to the attention of R&B producer Norman Connors, who helped start the careers of so many Soul vocalists such as Phyllis Hyman and Michael Henderson. Connors recruited Jones to sing on his 1980 LP, *Take It To the Limit*, and to pursue a career in secular R&B. Jones jumped to the nascent Jive Records label in 1987 and scored his biggest crossover hit, "We've Only Just Begun", a nice mid-tempo number that received significant Soul and Pop airplay.

BolSoul are particularly delighted to have secured Glenn as this year's headline act and the BolSoul audience will be delighted with two very special sets from this extraordinary vocalist.

▶▶ BolSoul 2016 will take over the magnificent 4\* Elephusa Hotel complex for 7 days and nights of the best contemporary Soul music sessions you'll hear all year from 11 - 7pm for the Poolside and Terrace Bar sessions whilst you sunbathe or chill and then from 10pm every night to the break of dawn between the Terrace, the Beach Venue and the Nightclub.

**Cool Million**

Influenced by the '80s synth funk of The S.O.S. Band, *Midnight Star* and the productions of Jimmy Jam & Terry Lewis, Cool Million are a European production duo whose mission statement is to "take soul back to the future."

Cool Million have consistently played shows throughout Europe with an ever-mutating line-up which always raises the crowd and are looking forward to their first Bolsoul appearance.
